Hi Scott,

I received your voicemail, and I see where the letter may have put the cart before the horse with respect to providing the actual surety. I'm responding by email to save us the time of writing and sending a letter to address this. This email and any responses to it will be copied to the files.

Since we still need to review your cost estimates and respond with any comments, it would be highly unlikely that Energy Fuels could provide the increased surety by the date stated in the letter, October 14, 2016. Therefore, you may disregard the request to provide additional surety by October 14, and just submit your next round of estimates by that date. Once we have reviewed and approved the estimates, then we will set a deadline for providing any increased surety required in the tentative approval letter.

I hope that answers your concerns. If you have any questions, please feel free to call me or Paul Baker.

Thanks,

--

Hi Mike,

Thank you for the clarification. We will submit the next round of estimates by October 14.

Scott
